- SQL
- NOSQL
- POSTGRES
- JENKINS
- DOCKER
- KUBERNETES
- AWS/GCP

ABOUT ME

I'm a self-taught software developer with 2 years of experience. After high school, I found myself working in my dad's carpentry business, but I realized coding was my true passion. I learned through countless YouTube tutorials and Codecademy, and I got my first job on my very first application. I have learnt a lot over the last 2 years and look forward to what my future in tech has in store for me. I love using technology to create exciting things on the web.

EXPERIENCE

Fitter, Finisher

El Shaddai Interiors

2016 - 2022

I started working here after I completed my matric. I was tasked with checking the materials that arrived on site, assembling, fitting and finishing the final product.

Fullstack Developer

Decidio GMBH

2023 - PRESENT

I was initially brought on to work as a support agent on the TRUENDO product and was then pushed to a develop role.

My tasks involved:

- finding bugs and fixing them
- implementing new features
- optimization of the product
- Developer operations
