

Miguelmarco Ramcharan

Software Developer

Professional Summary:

I'm a self-taught software developer with over 2.5 years of hands-on experience working across both frontend and backend systems, and stepping in for DevOps when needed. I started my journey in support and grew into full-stack development, contributing to real-world, privacy-focused applications. I care about building things that are scalable, secure, and actually help users. I'm always learning, always improving, and always ready to jump into a challenge.

Skills:

Languages & Tools: HTML, CSS, JavaScript, TypeScript, SQL, NoSQL, Golang, Node.js

Frameworks & Platforms: React, Express.js

DevOps & Infrastructure: Docker, Kubernetes, Jenkins

Other: Git, REST APIs, CI/CD, Agile

Experience:

Software Developer / DevOps Support - Decidio GmbH (Remote) | Jan 2023 - Present

- Promoted from Support Agent to Full-stack Developer.
- Built and maintained Truendo's privacy dashboard, backend systems, and cookie consent Privacy Center.
- Supported DevOps pipelines and deployments using Docker, Kubernetes, and Jenkins.
- Earned two performance-based raises.

Carpenter - El Shaddai Interiors (Durban) | 2017 - 2022

- Crafted custom furniture and interior solutions in a family business.
- Developed discipline, craftsmanship, and client-focused problem solving.

Education:

Self-taught through real-world experience, self-study, and continuous learning. No formal degree.

Target Roles:

Software Developer | Full-stack Developer | DevOps Engineer
